NOVELTY ITEM

HOW IT WORKS: Short on money? Use the Obama Card to get your fair share of the American economy. Use it to pay your mortgage, your neighbor's mortgage, buy a new car, bail out your failing enterprise, "make it rain" at the gentleman's club. Purchase anything you like and Congress will add the cost to the national debt. With all the parasites out there, it won't be you who finally kills the host. Why produce when you can sell your freedom?
